

.....
Dear Parent/Guardian,

It is the policy of New Athens CUSD 60 to not display photographs of our students on our website without explicit written permission from the students' parents or legal guardians.

Furthermore, if permission is granted, we do not display our students' full names in conjunction with a picture, i.e., either a picture or the students' names for the purposes of recognizing achievements or showcasing school events.

We are asking to make an exception to our policy and display your child's picture and full name together for the purpose of recognizing their status as a Rotary Student, Student of the Month, or other prestigious recognition.

(Check all that apply.)

We already have written permission on file to display either/or photographs and full names on our website.

We need you to review the attached permission slip that was originally given at registration for permission to display either/or photographs and full names on our website.

We need further permission to display your child's name in conjunction with his or her picture on our website.

I, (parent name) _____, give New Athens CUSD 60 to display both my child's name, (student name) _____ and picture together on the school's website for the purpose of recognizing their status as a Rotary Student, Student of the Month, or other prestigious recognition.

Signature: _____ Date: _____
